

Greetings from the physicians and staff of Academic Primary Care Associates! I am writing this letter to inform you of some changes that are underway within our office.

This letter is to formally notify you that the office of Academic Primary Care Associates will transition to an HCA owned clinic as of September 1, 2017. The new clinic name will be Lewis Gale Physicians Family Medicine.

Our current attending physicians and residents will continue to see you for your medical care. However, in order for them to have access to your past medical history with APCA, you will need to sign a medical release form authorizing us to transfer your medical records from APCA to Lewis Gale Physicians Family Medicine. I have attached the medical release form that is required. You will need to return this completed medical release form to the APCA office for processing. Please note, if you are a patient of ASOM or New Beginnings Pediatrics, you will not need to sign a medical release form.

The new phone number for Lewis Gale Physicians Family Medicine will be 540-443-3700. The staff of Lewis Gale Physicians Family Medicine will be available to answer the phones and schedule appointments at the office on September 1, 2017. The clinic office hours will be Monday-Friday from 8am-5pm.

We thank you for choosing Academic Primary Care Associates for your medical care and wish you happiness and good health in the future!

Sincerely,

Dee Dee Linkous
Business Office Manager
